- ✓ Home-based model of care
- ✓ Communal and private living spaces
- ✓ Large bedrooms
- ✓ Built-in laundry and internal bathroom facilities
- ✓ Secure, monitored premises
- ✓ Green spaces for community gatherings

Construction of Śakti House will begin once funding targets have been reached—and your generosity will take us a critical step towards achieving this important goal.

Śakti House is one of two spacious homes located within a freestanding building that is positioned in a more private area of the campus with other vulnerable children's homes.

The home has been architecturally designed to help foster friendship and a sense of community among children, with a central village green and plenty of shared community spaces.

The layout of the home is also designed to be flexible and adaptable to the current and future needs of 3 Angels Nepal and their beneficiaries.

Śakti House will offer communal areas for socialising and learning, shared facilities such as a laundry and bathrooms, and private spaces that include separate bedrooms for the children and carers.

Each house can accommodate up to 10 boys at any given time and will be run on a home-based model of care. Practically, this means two qualified carers—or house

parents—will always be on hand to provide the boys with loving support and guidance.

Passive solar principles, incorporated into the home's design, will utilise the sun's energy to maintain a comfortable temperature indoors and to keep energy costs low.

Extra security measures such as CCTV and 24/7 on-site guards will send a comforting and much-needed message of safety.

In Nepali, Śakti means strength.

**Thank you for considering fully funding Śakti House. Your generosity will give vulnerable children a beautiful space in which they can live, laugh, thrive and just be kids.**
