## Patron of the Arts

\$25,000

**Are you passionate about nurturing creativity in children?**

As a Patron of the Arts, you will empower vulnerable children to explore their creative potential.

Your gift will be dedicated to constructing music and creative arts studios as part of the new school campus to promote the holistic development of 3 to 18 year olds.

Construction of the new music and creative arts studios will begin once funding targets have been reached—and your generosity will take us a critical step towards achieving this important goal.

Music, visual arts and creative expression are proven to inspire the imagination, stimulate cognitive, emotional and physical development, and build fine motor skills in children.

The primary school music studio is part of a larger building that includes a library, computer room, integrated sports store, and bathroom facilities for boys and girls.

It will be located close to the main buildings of the primary school and easily accessible by younger students for music classes throughout the school week.

The secondary school creative arts studio is located across the campus, on the first floor of an arts and sciences centre that includes industrial arts and food technology facilities, and fully equipped science and computer labs.

The studio will introduce secondary students to visual arts and textiles as part of promoting creativity and as potential vocational avenues.

Both studios will benefit from passive solar principles that utilise the sun's energy to warm and cool living spaces and keep energy costs low.

**Thank you for considering becoming a Patron of the Arts. Your generosity will help empower children with creative skills that will enable them to flourish holistically—physically, cognitively and socio-emotionally.**
