## Health Advocate

**\$5000**

**Are you passionate about helping others thrive through good health and timely medical intervention?**

As a Health Advocate, you will empower trafficking survivors in Nepal to access critical healthcare, ensuring their future is one of freedom and wholeness.

Your gift will go towards constructing a new medical centre where trafficked women and children can discuss their medical needs in a safe, comfortable space.

Construction of the new medical centre will begin once funding targets have been reached—and your generosity will take us a critical step towards achieving this important goal.

Health is a fundamental human right. Everyone, regardless of their race, religion, political belief, economic or social condition should have the opportunity to enjoy the highest attainable standard of health.

Women and children rescued from trafficking suffer from an array of physical and psychological health issues stemming from inhumane living conditions, poor sanitation, inadequate nutrition and physical assault. On top of this, they are more likely to be suffering from infectious diseases such as tuberculosis.

The new on-site medical centre will ensure timely interventions when required, and will include a triage room equipped with dressings and first aid supplies to provide trafficking survivors with a safe, clean, private space to be assessed when they first arrive.

Wounds can be cleaned and dressed to prevent infection, and testing for communicable diseases conducted.

A qualified doctor will oversee the care of all the women and children. Similar to a GP, they will be the first point of contact if anyone feels unwell or has a health concern, leading to earlier diagnosis and a better outcome.

All visitors to the centre will require a brief security assessment before entering and exiting.

Eventually, the aim is to extend healthcare services to the surrounding community who will be able to proactively stay healthy through access to screenings and preventive measures.

**Thank you for considering becoming a Health Advocate. Your generosity will ensure trafficking survivors receive the quality of medical care they deserve for continued good health and wellbeing.**

**Ready to give?**

*While every endeavour is made to ensure price points accurately reflect program costs, fluctuations in exchange rates, cost of building materials and unforeseen global events may impact the financial cost of implementation. Therefore, all funds raised will be pooled to cover The Pokhara Project development as a whole. Give Freedom International also reserves the right to make adaptations to the Pokhara Project to respond to our Field Partners needs from time to time. We guarantee that 100% of your gift goes to the field.*
