

HEALTH

## Health

\$620,000

**Are you passionate about providing quality healthcare to those who need it most?**

By fully funding Health, you will provide trafficked women and children with critical medical attention, and ensure a legacy of good health for generations to come.

Your gift will be dedicated to constructing a new medical centre where women and children will receive confidential care in a private and comfortable space.

Construction of the new medical centre will begin once funding targets have been reached—and your generosity will take us a critical step towards achieving this important goal.

Women and children often arrive at 3 Angels Nepal in poor health and in urgent need of medical attention. Sadly, the stigma attached to trafficking victims means they are treated poorly in general hospitals, face excessive wait times, and rarely receive proper care and attention.

The Pokhara Project is also a 30-minute drive on unsealed roads to the nearest hospital. Having medical facilities on site will enable timely interventions when required.

The new medical centre will include a triage room, equipped with dressings and first aid supplies to provide women and children with a safe, clean, private space to be assessed when they first arrive.

Wounds can be cleaned and dressed to prevent infection, and testing for communicable diseases conducted.

A qualified doctor will oversee the care of all the women and children. Similar to a GP, they will be the first point of contact

if anyone feels unwell or has a health concern, leading to earlier diagnosis and a better outcome.

This flexible community space can be used by medical staff to conduct education and awareness programs that promote healthy lifestyles and include basic first aid skills, self-care, disease awareness and prevention, and human trafficking awareness.

**Thank you for considering fully funding Health. Your incredible generosity will provide women and children with critical healthcare, and the freedom that good health brings—in this generation and generations to come.**

*While every endeavour is made to ensure price points accurately reflect program costs, fluctuations in exchange rates, cost of building materials and unforeseen global events may impact the financial cost of implementation. Therefore, all funds raised will be pooled to cover The Pokhara Project development as a whole. Give Freedom International also reserves the right to make adaptations to the Pokhara Project to respond to our Field Partners needs from time to time. We guarantee that 100% of your gift goes to the field.*
