

PROTECTION

Protection Advocate

\$5000

Are you passionate about keeping trafficking survivors safe from harm?

As a Protection Advocate, you will provide trafficking survivors with a safe space and a caring community to heal in.

Your gift will be directed towards providing practical security measures that will give women and children the confidence and freedom to restore and thrive, free from fear and harm.

Construction will begin once funding targets have been reached—and your generosity will take us a critical step towards achieving this important goal.

Even after victims of exploitation are rescued, thwarted traffickers often seek them out to try again. The loss of what they consider a valuable asset puts the rescued individuals and the team at 3 Angels Nepal in constant danger, creating a further sense of unease and vulnerability.

The protection of all those who will live, work and use The Pokhara Project has been carefully considered by subject matter experts and architects throughout the design process.

Protection has been designed into all elements of the new campus—including security through technology and through promoting a loving and vigilant community—to ensure trafficking survivors have a safe place where they are known, and can live free from fear and full of hope.

Once complete, the new campus will be surrounded by a secure perimeter wall, sections of which will be topped with barbed wire, and monitored by 24/7 on-site guards and CCTV.

Admission to the women's safe haven and vulnerable children's homes will be closely protected. Heightened security measures will require those entering and exiting the site to be closely vetted and monitored.

Plans also include on-site accommodation for 3 Angels Nepal staff, who have the expertise and experience to monitor safety and assess risks if and when they arise.

Thank you for considering becoming a Protection Advocate. Your generosity will provide women and children with a secure environment and a vigilant community where they can heal and grow, free from fear and harm.

While every endeavour is made to ensure price points accurately reflect program costs, fluctuations in exchange rates, cost of building materials and unforeseen global events may impact the financial cost of implementation. Therefore, all funds raised will be pooled to cover The Pokhara Project development as a whole. Give Freedom International also reserves the right to make adaptations to the Pokhara Project to respond to our Field Partners needs from time to time. We guarantee that 100% of your gift goes to the field.
