

PROTECTION

Protection

\$1.6 million

Do you care deeply about protecting women and children?

Fully funding Protection will provide trafficking survivors with a safe environment to heal in, and a legacy of freedom for generations to come.

Your gift will be dedicated to practical security measures that will protect women and children, and ensure they are able to live free from fear and safe from harm.

Construction will begin once funding targets have been reached—and your generosity will take us a critical step towards achieving this important goal.

The Pokhara Project is built in a semi-rural location, making accessing it difficult. Watching over every entrance and exit will be state-of-the-art CCTV cameras, designed to ensure the safety of 3 Angels Nepal's beneficiaries and staff. A live feed from the cameras will be streamed into a central monitoring room inside the guard house and will be closely observed by trained security staff.

The guard house will be the gateway into the new facilities. It will be staffed 24 hours a day, monitoring the movements of all people on and off the site. The campus will be protected on one side by an unscalable cliff face with the Seti River below. A retaining wall, topped with barbed wire in sections, will encompass much of the complex for extra security.

All buildings will require security clearance for entering and exiting. The campus also provides on-site accommodation for specialised carers and core staff who have been trained to identify threats, manage risks, and act accordingly to protect those on site.

Staff will also use dedicated software to signal for help should they feel threatened and circulate photos or descriptions of traffickers wanted by the police.

The entire Pokhara Project is designed with the most vulnerable in mind—to keep them safe and protected within its walls.

Secure, fit-for-purpose facilities means 3 Angels Nepal can redirect their time and resources from maintaining their current, rented and easily damaged buildings to rescuing and protecting more of those in the community who need them.

Thank you for considering fully funding Protection. Your incredible generosity will ensure that for generations to come, trafficking survivors feel safe to heal and no longer fear the threat of harm.

While every endeavour is made to ensure price points accurately reflect program costs, fluctuations in exchange rates, cost of building materials and unforeseen global events may impact the financial cost of implementation. Therefore, all funds raised will be pooled to cover The Pokhara Project development as a whole. Give Freedom International also reserves the right to make adaptations to the Pokhara Project to respond to our Field Partners needs from time to time. We guarantee that 100% of your gift goes to the field.
