

PROTECTION

Staff Homes

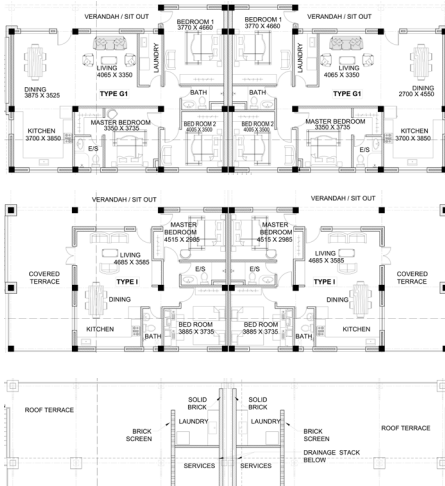

\$450,000

Fully funding Staff Homes will provide 3 Angels Nepal's core staff with a safe place to live on site. Your incredible gift will be used to construct a dedicated building containing private homes to ensure staff members are close and on hand in case of emergencies.

Features include:

- ✓ Living capacity for 3 Angels Nepal's core staff
- ✓ Communal and private living spaces
- ✓ Large bedrooms
- ✓ Built-in laundry and internal bathroom facilities
- ✓ Semi-basement storage spaces
- ✓ Communal laundry facilities
- ✓ Secure, monitored premises
- ✓ Green spaces for community gatherings

Construction of the staff homes will begin once funding targets have been reached—and your generosity will take us a critical step towards achieving this important goal.

An important aspect of ensuring the safety of all those who will use the new facilities is to provide on-site homes for staff who will also benefit from the campus' security features and be on hand to deal with emergencies should they arise.

Proximity is vital given the remoteness of the site and vulnerability of those living there. Staff have been specially trained to identify threats, manage risks, and act accordingly to protect those on site.

Living on site will ensure core staff fully integrate into the community and build trust, friendship and understanding among beneficiaries.

Staff homes will be spacious, single floor apartments within a designated freestanding building positioned in a private area of the campus with other homes.

There will be four self-contained homes in the building with an entire semi-basement level dedicated to storage.

The homes are flexible spaces that offer communal living areas for families, couples or housemates, shared facilities such as a kitchen, dining, internal laundry and bathrooms, and private spaces that include bedrooms.

Each home has an attached verandah for outdoor recreation and a shared rooftop terrace with communal laundry facilities.

Passive solar principles, incorporated into the building's design, will utilise the sun's energy to maintain a comfortable temperature indoors and to keep energy costs low.

Thank you for considering fully funding Staff Homes. Your incredible generosity will provide hardworking 3 Angels Nepal staff with a safe home and a crucial on-site presence for rapid responses to the needs and emergencies of women and children.

While every endeavour is made to ensure price points accurately reflect program costs, fluctuations in exchange rates, cost of building materials and unforeseen global events may impact the financial cost of implementation. Therefore, all funds raised will be pooled to cover The Pokhara Project development as a whole. Give Freedom International also reserves the right to make adaptations to the Pokhara Project to respond to our Field Partners needs from time to time. We guarantee that 100% of your gift goes to the field.
