

SUSTAINABILITY

Sustainability

\$1.1 million

Are you passionate about sustainability?

Fully funding Sustainability means giving 3 Angels Nepal the tools they need to achieve their long-term goal of sustainability and self-sufficiency.

Your gift will be directed toward constructing new sustainable facilities that will ensure our field partner's resilience to natural disasters and positively impact trafficking survivors for decades to come.

Construction of the new facilities will begin once funding targets have been reached—and your generosity will take us a critical step towards achieving this important goal.

Sustainable principles run through the very heart of The Pokhara Project, not only in the design and layout of the campus, but in enabling 3 Angels Nepal to achieve their long-term goal of becoming fully self-sufficient.

Architects have intentionally designed the buildings and infrastructure to be low maintenance, sustainable and able to withstand Nepal's level 5 earthquake zone and extreme seasonal monsoons.

Materials such as wood and steel can resist the stress of tremors, and will be used during construction alongside other resilient materials such as cement mortar and aluminium. This ensures the longevity of the structures and the safety of resident women and children from destructive environmental forces.

The use of passive solar principles that maximise the sun's energy to efficiently heat and cool living spaces, will radically reduce energy costs.

Importantly, The Pokhara Project will allow 3 Angels Nepal to move out of poorly constructed rental properties into their own purpose-built facilities that holistically provide for them now and into the future.

Thank you for considering fully funding Sustainability. Your incredible generosity will ensure trafficking survivors have comfortable spaces to fully recover in, and empower 3 Angels Nepal to become sustainable and self-sufficient well into the future.

While every endeavour is made to ensure price points accurately reflect program costs, fluctuations in exchange rates, cost of building materials and unforeseen global events may impact the financial cost of implementation. Therefore, all funds raised will be pooled to cover The Pokhara Project development as a whole. Give Freedom International also reserves the right to make adaptations to the Pokhara Project to respond to our Field Partners needs from time to time. We guarantee that 100% of your gift goes to the field.
