

SUSTAINABILITY

Sustainability Advocate

\$5000

Are you passionate about sustainability?

As a Sustainability Advocate, you will empower 3 Angels Nepal to remove roadblocks to achieving their long-term goal of sustainability and self-sufficiency.

Your gift will support the sustainability objectives of The Pokhara Project and give trafficked and at-risk women and children a secure future.

Construction of the new facilities will begin once funding targets have been reached—and your generosity will take us a critical step towards achieving this important goal.

Sustainable principles run through the very heart of The Pokhara Project, not only in the design and layout of the campus, but in enabling 3 Angels Nepal to achieve their long-term goal of becoming fully self-sufficient.

How does sustainability lead to self-sufficiency? By addressing roadblocks at the country and community level that hinder our Field Partner from standing on their own two feet.

Supporting sustainability means championing principles that will lead to their financial independence and longevity, while increasing their capacity and community impact.

The Pokhara Project will be constructed using the highest quality sustainable building materials and earthquake-proof engineering. This minimises damage from monsoons and tremors, radically reducing the drain on our Field Partner's resources and promoting their financial self-sufficiency.

Importantly, sustainability promotes longevity by embracing our Field Partner's unique environment—in the passive solar design that will utilise Nepal's seasonal sun, and the engineering that will withstand natural disasters.

Sustainability will cement 3 Angels Nepal's place and relevance in the community too, by ensuring the new facilities are built to last.

Thank you for considering becoming a Sustainability Advocate. Your generosity will support 3 Angels Nepal to continue their life-giving work well into the future.

Scan here to give to Sustainability

While every endeavour is made to ensure price points accurately reflect program costs, fluctuations in exchange rates, cost of building materials and unforeseen global events may impact the financial cost of implementation. Therefore, all funds raised will be pooled to cover The Pokhara Project development as a whole. Give Freedom International also reserves the right to make adaptations to the Pokhara Project to respond to our Field Partners needs from time to time. We guarantee that 100% of your gift goes to the field.
