Year 3 Classrooms

\$90,000

Are you passionate about empowering children to be all they can be?

By fully funding Year 3 Classrooms, you will inspire vulnerable children to discover a love for learning.

Your gift will be directed towards constructing spacious, state-of-the-art classrooms where children will be equipped with the skills to build a future free from trafficking.

Construction will begin once funding targets have been reached—and your generosity will take us a critical step towards achieving this important goal.

According to the United Nations Educational, Scientific and Cultural Organisation (UNESCO): Learners in supportive environments have high levels of self-efficacy and self-motivation and use learning as a primary transformative force.

Safe, nurturing environments are crucial for positive academic development, which is why The Pokhara Project will include comfortable, spacious classrooms, indoors and out, that inspire curiosity and are highly conducive to learning.

Each classroom will be customised and fit-for-purpose, with additions such as integrated stores, taps, sinks, electrical outlets, storage cupboards and more, to ensure lessons are efficient, and that students and teachers have access to everything they need.

At the rear of the classroom, sliding doors lead out to a shaded courtyard area for outdoor play and a secure breakout learning space.

All classrooms will benefit from passive solar principles that maximise the sun's light for efficient warming in cooler months. Well-placed structural shades will ensure consistent cooling on warm days.

Thank you for considering fully funding Year 3 Classrooms. Your generosity will support children to receive a life-changing education in a safe and inspiring environment.
